

# POSTER SESSIONS

24–26 October | Lisboa Congress Centre, Portugal

LISBON ADDICTIONS 2017

SECOND EUROPEAN CONFERENCE ON ADDICTIVE BEHAVIOURS AND DEPENDENCIES

www.lisbonaddictions.eu | #LxAddictions17 |  | 

## DAY 1 TUESDAY 24 OCTOBER

### 11:30 – 13:00 POSTER SESSIONS

#### POSTER SESSION 1

##### Reducing risks

- Analysis and sociodemographic characterization of drug users in the context of harm reduction intervention in the north region of Portugal. *Isabel Ponte, Portugal*
- Last party polysubstance use profiles: consequences and settings for use. *Oscar M. Lozano-Rojas, Spain*
- Risk to heroin users of poly-drug use of pregabalin or gabapentin. *Graeme Henderson, United Kingdom*
- Severity and management of drug interactions in the pharmacological management of alcohol use disorders. *Lanfranco Pellesi, Italy*
- Testing the S-O-S initiative: randomized trial of community-based naloxone coverage with sequential roll-out. *Rebecca McDonald, United Kingdom*
- Alcohol misuse among low-threshold harm reduction clients: an action-research group for alcohol risks. *Ximene Rego, Portugal*
- Consequences of alcohol use in work-related settings: results from a survey among Norwegian employees. *Inger Synnøve Moan, Norway*
- Benzodiazepine abuse in the elderly. *Duarte Pinheiro, Portugal*
- Cocaine consumption in non injectable users: interface with users' quality of life. *Sandra Cristina Pillon, Brazil*
- Factors associated with the severity of cocaine dependence (smoked and snorted) among outpatients in a Brazilian sample. *Sandra Cristina Pillon, Brazil*
- Substance misuse and risk factors among school adolescents. *Vera Lucia Mediondo Osinaga, Brazil*

#### POSTER SESSION 2

##### Clinical tools

- Brief multimedia intervention (BMI) video for reducing hazardous and harmful consumption. *Tereza Barroso, Portugal*
- Game addiction scale: translation and adaptation among Portuguese adolescents. *Tereza Barroso, Portugal*
- Motor learning alterations in chronic cannabis users. *Laia Miquel, Spain*
- Compulsive sexual behaviour treatment, current state analysis: case report. *Haifa Zalila, Tunisia*
- Sex differences in early withdrawal syndrome of patients with alcohol use disorder. Cohort study in the Spanish network on addictive disorders. *Roberto Muga, Spain*
- Severity of dependence scale: diagnostic cut-off for pharmaceutical opioid dependence. *Raimondo Bruno, Australia*
- How to identify food addiction. *Duarte Pinheiro, Portugal*
- The effect of group therapy on abstinence of people addicted to alcohol and people addicted to gambling. *Jana Bolkova, Czech Republic*
- Predicting early treatment termination (drop-out) from neuropsychological functions in abstinent substance use dependent (SUD) patients. *Arne Holen, Norway*
- Psychopathological profile of drug users undergoing treatment in a residential detoxification. *Sónia Esteves, Portugal*
- Therapeutic processes in dialectical behavior therapy skills training for alcohol use disorder treatment: motivation for change and coping skills. *Marco Cavicchioli, Italy*

- Vilnius primary school children wellbeing at school and their perception of health. *Olga Ubartienė, Lithuania*
- Heavy drinking and consequences among polydrug users under treatment in a Brazilian context. *Vera Lucia Mediondo Osinaga, Brazil*
- Health behaviors and addiction severity among users of cocaine and crack in a Brazilian sample. *Sandra Cristina Pillon, Brazil*
- Alcohol consumption and health promotion among nursing staffs in a Brazilian sample. *Vera Lucia Mediondo Osinaga, Brazil*

- Alcohol use disorders identification test (audit) and mortality risk in US Veterans and international population: a systematic review and meta-analysis. *Sören Kuitunen-Paul, Germany*
- A portrait of the fellowship of alcoholics anonymous in Portugal. *Mário Marques, Portugal*

### 13:15 – 14:15 POSTER SESSIONS

#### POSTER SESSION 3

##### Specific target populations

- Contingency management for drug use in treatment for opiate addiction: a systematic review and meta-analysis. *Tom Ainscogh, United Kingdom*
- Who are the abstainers? Results from the 2017 Portuguese general population survey. *Clara Vital, Portugal*
- Sociodemographic characteristics, risk and protective factors for first admissions in opioid maintenance treatment. *Siv-Elin Carlsen, Norway*
- Characterization of underage patients with alcohol and substance-related intoxications admitted to an emergency department in metropolitan Barcelona. *Roberto Muga, Spain*
- Is dose per joint a reliable cannabis use metric? Investigating cannabis and tobacco in joints and if they are influenced by acute drug administration. *Chandni Hindocha, United Kingdom*
- Screening for continued substance use among subjects on buprenorphine maintenance treatment: a cross-sectional study. *Suresh Thapaliya, Nepal*
- Motives to use alcohol among Portuguese adolescents. *Cátia Branquinho, Portugal*
- Behavioral determinants of risky alcohol use initiation in at-risk adolescents. *Paula Dias, Portugal*
- Which answers to the consumption of cannabis in adolescence. CAPPYC a possible strategy. *Elsa Fé, Portugal*
- ADHD and HCV prevalence in a standardized investigation in Austrian prisons in opioid maintained subjects and imprisoned adolescents. *Marisa Silbernagl, Austria*
- Social problems of the elderly in opioid maintenance treatment. *Sverre Martin Nesvåg, Norway*
- Alcohol misuse risk factors among youth. *Mirjam Tüür, Estonia*

#### POSTER SESSION 4

##### Understanding health consequences

- Synthetic cannabinoids use and increase of cannabis hyperemesis syndromes: is there a link? *Reynald Le Boisselier, France*
- An observational study of the severity of respiratory depression in chronic opioid dependence. *Basak Tas, United Kingdom*
- Monitoring deaths related to drug use and mortality among drug users in Europe: the drug-related deaths indicator (DRD). *Isabelle Giraudon, EMCDDA*
- Monitoring infectious diseases among drug users: the drug-related infectious diseases indicator (DRID). *Isabelle Giraudon, EMCDDA*
- Sex addiction, pathological gambling and impulsiveness traits in among drug users in a Brazilian context. *Sandra Cristina Pillon, Brazil*
- Mortality among high risk drug users diagnosed with opioid-, stimulant- or polydrug disorders: a Norwegian registry follow-up study of the total cohort starting treatment in 2009-10. *Anne-Karine Markeng Melsom, Norway*
- Self-management education for women with drug addiction. *Kathrine Nilsen, Norway*
- Health literacy of employees of children educational institutions. *Olga Ubartienė, Lithuania*
- Benzodiazepine abuse and dependence among patients with severe mental illness. *Joana Isaac, Portugal*
- Preliminary results and publication impact of a dedicated addiction clinician scientist research fellowship. *Jan Klimas, Ireland*

**14:30 – 16:00 POSTER SESSIONS****POSTER SESSION 5****Prevention: theory and practice**

- A systematic review of internet addiction prevention interventions. *Roman Gabrhelík, Czech Republic*
- Eastern Porto school survey project on tobacco, alcohol and cannabis. *Ana Tavares, Portugal*
- Lifestyle and psychosocial factors in risk consumption of cannabis. *Cátia Coutinho, Portugal*
- The utilization of a creative strategy in the prevention of the use of psychoactive substances with children and adolescents. *Jorge Jaber Filho, Brazil*
- Prevention program for children and adolescents at the age of 8-15 years old who grow up in a problematic family environment. *Maria Prodromou, Cyprus*
- Differences in gambling motives by gambling severity and activities in adolescents. *Víctor Martínez-Loredo, Spain*
- Alcohol quiz: truth or dare?! Interactive game to develop knowledge about alcohol among adolescents. *Tereza Barroso, Portugal*
- Internet and gambling among students of Porto eastern zone. *Anabela Monteiro, Portugal*
- Riscos & Desafios Program: process evaluation. *Carla Rocha, Portugal*
- Prevention in higher education context: the Riscos & Desafios Program. *Carla Rocha, Portugal*
- Conception, implementation and evaluation of a model promoting the prevention of risk behaviours, associated to the consumption of psychoactive substances, among young people. *Paula Costa, Portugal*

**POSTER SESSION 6****Constructing addictions: theories, methodology and measurement**

- Polydrug users' consumption profiles and their relationship with dsm-5 personality facets. *Oscar M. Lozano-Rojas, Spain*
- The gaming disorder symptoms: DSM-5 vs. ICD 11. *Seung-Yup Lee, Korea South*
- Craving in the diagnoses of alcohol use disorder. *Emeline Chauchard, France*
- Estimating high-risk opioid use in Europe within the PDU indicator. *Thomas Seyler, EMCDDA*
- Pedagogical and legal activities conduct in Poland for people addicted to alcohol. *Joanna Rajewska de Mezer, Poland*
- Spirituality behind the bars: meditation as a treatment of drug addiction in a correctional setting. *Felice Alfonso Nava, Italy*
- Psychopathological profile of gamblers on treatment. *Juan Lamas, Spain*
- Understanding gambling addiction. An analysis of the discourses produced by psychologists, psychiatrists and general practitioners. *Tiziana Marinaci, Italy*
- Physical activity and sports practice associated with substance use by adolescents. *Sandra Reynolds Rebolo, Portugal*
- Personality profiles in substance use disorders: do they differ on clinical symptomatology, personality disorders and coping? *Els Santens, Belgium*
- Stigmatizing attitudes among healthcare professionals in the Middle East: a randomized study of medical students' attitudes toward persons with alcohol and tobacco use disorders. *Salman Alzayani, Bahrain*
- Drugs in combat: uses and meanings of psychoactive substances in the Portuguese colonial war. *Vasco Calado, Portugal*

**16:30 – 18:00 POSTER SESSIONS****POSTER SESSION 7****Demographic challenges**

- State and trait anxiety and depression, evaluation of the time perspectives of opiate addicts who are on a substitution methadone and buprenorphine therapy. *Karlo Karher, Serbia*
- Violent situations in a psychosocial attention center for alcohol and other drugs. *Fernanda Silveira de Souza, Brazil*

**POSTER SESSION 8****Research: ethics, methods and practice**

- Bibliometric benchmarking on substance abuse among European Union vs. United States (2008-2012). *Rafael Alexandre-Benavent, Spain*
- The 100 most cited European Union papers in substance abuse journals. *Rafael Alexandre-Benavent, Spain*

- Investigating drug users seeking treatment through economic restraints in Greece: a 10 year longitudinal study. *Gerasimos Papanastasatos, Greece*
- The opioid dependence in the elderly - the new old age. *Carlos Vasconcelos, Portugal*
- Development of Hepfriend; a Dublin community hepatitis C peer support model for PWID's. *John Lambert, Ireland*
- Tobacco use disorders in Albanian population. *Sonila Bitri, Albania*
- Addicted somewhere, addicted everywhere. *Haifa Zalila, Tunisia*
- Family economic circumstances in childhood and substance use in adolescence. *Jens Christoffer Skogen, Norway*
- Prevalence and patterns of drug use in the general population in indicator ("GPS"). *João Matias, EMCDDA*
- The effect of the modes of response on the structure of a social representation: the example of the representations on attitudes towards risk behaviours. *Claudia Urbano, Portugal*
- First national study on problematic drug users in Albania 2015. Size estimates and patterns of drug abuse. *Alban Ylli, Albania*
- Multidisciplinary work in a scientific society of addictions. *Francisco Pascual, Spain*

11:00 – 12:30 POSTER SESSIONS

POSTER SESSION 9 New methods and analyses	POSTER SESSION 10 Impact of new technologies	POSTER SESSION 11 Dynamics and change
<ul style="list-style-type: none"> <li>– Alternative to coercive measures for drug-related minor offences: the principle of proportionate sentencing in effective policies. <i>Gerasimos Papanastasatos, Greece</i></li> <li>– Registration of treatment demands for substance use disorders in Belgium: what are the factors linked with the utilisation of the client’s national register number? <i>Jérôme Antoine, Belgium</i></li> <li>– Investigating possible causal associations of tobacco and cannabis use with mental health: a Mendelian randomisation analysis. <i>Meg Fluharty, United Kingdom</i></li> <li>– Self-administration of cocaine and methamphetamine in drosophila melanogaster. <i>Ana Filosevic, Croatia</i></li> <li>– Innovative methods for exploring new drug-related trends and threats: the EMCDDA Trendspotter methodology. <i>Manuel Jesús Ruiz Muñoz, Spain</i></li> <li>– Searching across diagnostic silos: phenotyping compulsive behaviours via online crowdsourcing. <i>Rico Lee, Australia</i></li> <li>– The need to create new innovative payment methods for addictions and behavioral health. <i>João Augusto, Portugal</i></li> <li>– Testing a festival’s wastewater. <i>Lisa Benaglia, Switzerland</i></li> </ul>	<ul style="list-style-type: none"> <li>– Is problematic internet use associated with loneliness, relationship status, and family functioning? A study in Portuguese adolescents and young adults. <i>Ivone Patrão, Portugal</i></li> <li>– The relationship between smartphone addiction and personality characteristics in a Portuguese sample. <i>Ivone Patrão, Portugal</i></li> <li>– Gambling behaviour on mobile devices in Switzerland. <i>Raoul Bitar, Switzerland</i></li> <li>– Family life appropriated by the virtual space. Sharenting as a new form of internet addiction. <i>Joanna Sikorska, Poland</i></li> <li>– Internet pornography: an addiction disorder without substance. <i>Hugo Afonso, Portugal</i></li> </ul>	<ul style="list-style-type: none"> <li>– Two intensity patterns of drug use within the Portuguese population – cross national and longitudinal analysis. <i>Casimiro Balsa, Portugal</i></li> <li>– Changes over time (1995-2015), across Europe, in global substance use patterns, among teenagers, and its relations with perceptions of availability, risk and parental attitudes toward substance use. <i>Fernanda Feijão, Portugal</i></li> <li>– The influence of progesterone in cigarette smoking and possible uses in nicotine addiction. <i>Guadalupe Marinho, Portugal</i></li> <li>– Prevalence and psychosocial predictors of performance enhancing substances use in physical activity settings: a systematic review. <i>Ana Tavares, Portugal</i></li> <li>– Women’s psychotropic trajectories: life events and drug use patterns. <i>Ximene Rego, Portugal</i></li> <li>– Simultaneous polydrug use in treatment population. <i>Kristiina Kuussaari, Finland</i></li> <li>– Trends in drug and alcohol treatment in prison from 2009 to 2014 in Ireland. <i>Aoife Cannon, Ireland</i></li> </ul>

12:45 – 14:15 POSTER SESSIONS

POSTER SESSION 12 Policy and programme evaluation	POSTER SESSION 13 Multiple voices
<ul style="list-style-type: none"> <li>– Pharmacoeconomic impact of supplemental medication use among opioid dependent patients treated with subdermal implantable or sublingual buprenorphine. <i>John A Carter, United States</i></li> <li>– Evaluation of a non-smoking program in psychiatric clinic. <i>Jorge Jaber Filho, Brazil</i></li> <li>– Cost-benefit analysis of medication assisted treatment and needle-syringe programs in Georgia. <i>Irma Kirtadze, Georgia</i></li> </ul>	<ul style="list-style-type: none"> <li>– Patient participation in guideline development: the Dutch experience. <i>Elske Wits, Netherlands</i></li> <li>– ‘vi(r)agem’. <i>Natércia Rodrigues, Portugal</i></li> <li>– Suit model &amp; methodology of peer led empowerment. <i>Sunny Dhadley, United Kingdom</i></li> <li>– Only variety (complexity) can respond to variety (complexity) - W. Ross Ashby. <i>Ilinka Serdarevic, Croatia</i></li> <li>– When recovery meets desistance. <i>Charlotte Colman, Belgium</i></li> </ul>

- A retrospective study of a therapeutic community treatment program. *Silvia Eiken Alpers, Norway*
- Municipal intervention program in the area of addictive behaviours and dependencies for the city of Lisbon (PMICAD LX). *Paula Rodrigues*

- Young recreational consumers: preventive and risk management practices when using psychoactive substances (PS). *Mara Silva, Portugal*

**14:30 – 16:00 POSTER SESSIONS**

<b>POSTER SESSION 14</b> <b>Drug-related crime and the illicit market</b>	<b>POSTER SESSION 15</b> <b>Responding to diversity</b>	<b>POSTER SESSION 16</b> <b>Integrating care models and partnerships</b>
<ul style="list-style-type: none"> <li>– Dialectical-based group therapy and sexuality of people with substance use disorders on methadone maintenance therapy: a clinical trial. <i>Effat Merghati Khoei, Iran</i></li> <li>– Cannabis and crime: findings from longitudinal register data. <i>Solveig Christiansen, Norway</i></li> <li>– Recidivism in drug-related crimes in Sweden 1993 - 2013. <i>Johan Ahlner, Sweden</i></li> <li>– Example of alert and reporting system of scopolamine poisoning among Parisian cocaine users at regional, national and European levels. <i>Cécile Chevallier, France</i></li> <li>– The use of alternatives to prison for drug offenders in Belgium. <i>Els Plettinckx, Belgium</i></li> <li>– Drug use among Peruvian young offenders: an evaluative research from a developmental approach. <i>Hugo Morales, Portugal</i></li> </ul>	<ul style="list-style-type: none"> <li>– Gender-sensitive treatment and prevention services for alcohol and drug users: does gender influence substance abuse and treatment trajectories? <i>Sarah Simonis, Belgium</i></li> <li>– What works in the treatment of women with alcohol-use problems? Systematic review of evidence-based studies. <i>Eva Hoch, Germany</i></li> <li>– Quality of life and its determinants in HIV-positive and HIV-negative drug users in the north and central regions of Portugal, 2009 and 2010. <i>Valéria Arantes, Portugal</i></li> <li>– Gender differences in HIV prevalence and risk behavior among people who inject drugs in Kohtla-Järve, Estonia. <i>Maris Salekesin, Estonia</i></li> <li>– Migration, drug use and harm reduction: an exploratory case study of Nepalese people who use drugs living in Lisbon, Portugal. <i>Ricardo Fuertes, Portugal</i></li> <li>– Pregnant women’s perceptions of information about alcohol use during pregnancy: a qualitative study. <i>Kerstin Hoffmeister, Portugal</i></li> </ul>	<ul style="list-style-type: none"> <li>– Facilitators and barriers in seeking treatment for substance use disorders among India’s patients: findings from a mixed-method survey research focusing on India’s clinical treatment professionals. <i>Sebastian Perumbilly, United States</i></li> <li>– People with severe schizophrenia and substance abuse: clinical and functional outcomes after prolonged, integrated treatment. <i>Juan J. Fernandez-Miranda, Spain</i></li> <li>– Severe mentally ill drug abusers undergoing integrated, case-managed treatment: outcomes after six years. <i>Juan J. Fernandez-Miranda, Spain</i></li> <li>– No one gets left behind: addressing the hidden burden of hepatitis C related advanced liver disease in PWID in the community. <i>John S. Lambert, Ireland</i></li> <li>– Alcohol use related problems in primary health care: attitudes and experiences of Czech general practitioners. <i>Ladislav Csémy, Czech Republic</i></li> </ul>

11:00 – 12:30 POSTER SESSIONS

<b>POSTER SESSION 17</b> <b>New developments in new psychoactive substances</b>	<b>POSTER SESSION 18</b> <b>Understanding and regulating drug markets</b>	<b>POSTER SESSION 19</b> <b>E-health</b>
<ul style="list-style-type: none"> <li>– Typology of new psychoactive substance use among illicit drug consumers in the Australian general population. <i>Rachel Sutherland, Australia</i></li> <li>– Are orexins the miracle solution for alcohol use disorders? <i>Guadalupe Marinho, Portugal</i></li> <li>– NPS in Belgium: an overview of data and the preliminary results of a new study project NPS-care. <i>Tina Van Havere, Belgium</i></li> <li>– Chemsex and health behavior among men who have sex with men in Germany. Results from a multicenter qualitative study. <i>Daniel Deimel, Germany</i></li> <li>– Composition of party drugs in Belgium: not what you would expect. <i>Peter Blanckaert, Belgium</i></li> </ul>	<ul style="list-style-type: none"> <li>– The future of drug supply monitoring in Europe. <i>Teodora Groshkova, EMCDDA</i></li> <li>– Synthesis of 4-methoxymethamphetamine hydrochloride and its precursors from unrestricted chemicals and organic impurity profiles examined. <i>Ronald Shimmon, Australia</i></li> <li>– Evolution and trend of narcotic substances, cocaine, heroin and cannabis in northern Portugal. <i>Ana Alves, Portugal</i></li> <li>– Buprenorphine, a non-therapeutic use! <i>Haifa Zalila, Tunisia</i></li> <li>– Drug situation in central Asia and its impact on Europe. <i>Ingo Ilja Michels, Germany</i></li> </ul>	<ul style="list-style-type: none"> <li>– Expanding access to buprenorphine treatment in rural areas with the use of telemedicine. <i>Eric Weintraub, United States</i></li> <li>– Gamification: the future of cognitive testing? <i>Rico Lee, Australia</i></li> </ul>

12:45 – 14:15 POSTER SESSIONS

<b>POSTER SESSION 20</b> <b>Lessons for clinical practice</b>	<b>POSTER SESSION 21</b> <b>Public health policies</b>
<ul style="list-style-type: none"> <li>– The benefits of physical activities in patients with dual diagnosis. <i>Jorge Jaber Filho, Brazil</i></li> <li>– Pregabalin abuse among intravenous drug users in south western Finland. A time-trend study 2008-2011-2014. <i>Solja Niemelä, Finland</i></li> <li>– Alcohol use, alcoholism and sleep disturbance. <i>Joana Isaac, Portugal</i></li> <li>– Pharmacological treatment of gambling disorders: a review. <i>Jochen Mutschler, Switzerland</i></li> <li>– Pharmacokinetics and clinical effects of THC and CBD taken orally as an herbal tea or oily solution in patients with chronic neuropathic pain. <i>Lanfranco Pellesi, Italy</i></li> <li>– Do arts therapies reduce substance misuse? A systematic review. <i>Karen Megrnahan, United Kingdom</i></li> <li>– Evaluation of the inpatient Minnesota program at Lisbon alcoholology unit – a comparison study between patients’ and practitioners’ perspectives. <i>Mara Jorge, Portugal</i></li> <li>– Satisfaction and perceptions of treatment with injectable diacetylmorphine and hydromorphone for long-term opioid dependence. <i>Kirsten Marchand, Canada</i></li> <li>– How to deal with patients whose problem is over sex? <i>Guadalupe Marinho, Portugal</i></li> </ul>	<ul style="list-style-type: none"> <li>– The Portuguese decriminalization model and the intervention on dissuasion of the Commission of Dissuasion of Drug Addiction of Porto. <i>Carla Lopes, Portugal</i></li> <li>– The Portuguese service network of addictive behaviors and dependencies: contributions to the Brazilian model. <i>Clayton dos Santos, Brazil</i></li> <li>– The Reitox development framework: new perspectives for the network. <i>Sandrine Sleiman, EMCDDA</i></li> <li>– Monitoring demand for drug treatment in Europe: the treatment demand indicator (TDI). <i>Linda Montanari, EMCDDA</i></li> <li>– Sexual desire and intercourse frequency: comparing smokers and non-smokers. <i>Rui Costa, Portugal</i></li> <li>– How to inform policy- and decision-makers about evidence-based alcohol/tobacco policy. <i>Matej Koši and Sanela Talić, Slovenia</i></li> <li>– Characteristics of current and potential attenders of drug consumption rooms among people who inject drugs (PWID) from the COSINUS cohort study – evaluation of harm reduction policy</li> </ul>

- Practitioners’ experiences of working with dual users of heroin and crack in community drug services. A thematic analysis. *Felicia Heidebrecht, United Kingdom*
- Predictors of heroin abstinence in opiate substitution therapy in heroin-only users and dual users of heroin and crack. *Felicia Heidebrecht, United Kingdom*
- Dual diagnosis and treatment: the experience of a multiprofessional team in mental health. *Jorge Jaber Filho, Brazil*
- Co-occurrence of psychiatric diseases in patients with cannabis use disorders. *Sonila Bitri, Albania*
- Anabolic-androgenic steroid use in substance use disorder treatment. *Marie Jørstad, Norway*

- in France. *Marie Jauffret-Roustide, France*
- Predicting frequent alcohol admissions to hospital using routinely collected hospital data in south London. *Ros Blackwood, United Kingdom*
- Effect of tobacco cessation policies in the consumption of anti-smoking medicines in Portugal. *Ana Araújo, Portugal*
- Recommendations based on a pilot survey of experts in drug treatment service commissioning: current readiness to address hepatitis C in people with opioid use disorders in England. *Mark Gilman, United Kingdom*
- Portuguese commissions for the dissuasion of drug addiction: perspectives of indicted drug users on their role in drug use. *Ludmila Carapinha, Portugal*

**14:30 – 16:00 POSTER SESSIONS**

**POSTER SESSION 22**

**Developments in basic research**

- Impairing inhibitory control increases ad libitum alcohol consumption – a transcranial magnetic stimulation study. *Adam McNeill, United Kingdom*
- Oxycodone-induced tolerance to respiratory depression: reversal by ethanol and PKC inhibition. *Rob Hill, United Kingdom*
- Methamphetamine, venlafaxine and tramadol – potential threat to aquatic environment. *Paula Brandeburová, Slovakia*
- Characterisation of tolerance development to rewarding effects of opioids. *Sarah Barrett, United Kingdom*
- A buprenorphine/naloxone sublingual tablet (Zubsolv®) for opioid substitution therapy: relative bioavailability and pharmaceutical properties compared with Suboxone® tablet. *Gill Mundin, United Kingdom*
- Brain activity of porn addict adolescents and faking good in pornography self-report questionnaire. *Rizki Edmi Edison, Indonesia*
- Influence of c. 118A>G OPRM1 and p.Val158Met comt polymorphism in drug addicts - a pilot study. *Carolina Ribeiro, Portugal*
- Benzodiazepine maintenance in opiate substitution treatment: good or bad? *Adam Bakker, United Kingdom*
- Reconsidering examining cannabis subtypes together due to opposing effects on brain, cognition and behavior. *Kristine Rømer Thomsen, Denmark*

**POSTER SESSION 23**

**Education and training in addictions**

- Comprehensive education in addiction science: case study of the addictology university study programme in the Czech Republic. *Amalie Pavlovská, Czech Republic*
- Mainstream movies as a medium to teach diagnostic criteria for substance use disorders: an exploratory study. *Daniele Zullino, Switzerland*
- Employability of healthcare addiction specialists in the Czech Republic from the point of view of graduates of the academic programmes in addictology and possible employers. *Amalie Pavlovská, Czech Republic*
- Creation and work from an addiction online magazine. *Mireia Pascual, Spain*
- Effectiveness of a cognitive bias modification-interpretation (CBM-I) on reducing frustration-related negative interpretation bias and temptation to use substances. *Ali Soleymani, Netherlands*
- A survey of the English substance misuse workforce: training preferences, digital literacy and work experience. *Robert Calder, United Kingdom*
- How to communicate from a press office in a scientific society. *Mireia Pascual, Spain*
- A new platform for exchange: professionalization, best practice and ‘knowledge share’ in substance use prevention and treatment. *Livia Edegger, United Kingdom*
- Knowledge of addictions: a neglected area in the Norwegian social work bachelors’ degree. *Thomas Svendsen, Norway*
