Stress and Addiction: Updates on the Chicken or Egg question

Dr. Sara L. Kroll (University of Zurich)

Dr. Isabell M. Meier (Oslo University Hospital)

Outline speakers

**LISBON
ADDICTIONS
2022**

1. **Boris Quednow** - Cue-induced cocaine craving enhances psychosocial stress and vice versa in chronic cocaine users
2. **Sara L. Kroll** - The endocannabinoid system and drug addiction: basal and stress-related endocannabinoid plasma levels in chronic cocaine users and prescription opioid users
3. **Leah M. Mayo** - The endocannabinoid system as a potential buffer against the development of a substance use disorder following childhood trauma exposure
4. **Molly Carlyle** - Understanding the mechanism that link childhood stress with risk of addiction
5. **Isabell M. Meier** - Are opioid effects mediated by relief or reward? Evidence from a clinical study

Final Discussion
