

Programme

Wed 23 Oct

11:50

Short communication

Efficacy of Cognitive vs. Mindfulness Targeted Hypnotic Suggestion on Working Memory and Relapse in Alcohol Treatment

11:50 to 13:20
Room 1.05
Timo Kvamme

Short communication

Controlled alcohol drinking rooms. Madrid's experience.

11:50 to 13:20
Room 1.05
Sonsoles Gutiérrez-Cáceres

Short communication

Implicit Social Attunement & Alcohol Use: The Effect of Peer Feedback on Willingness to Drink in Social Settings

11:50 to 13:20
Room 1.05
Emese Kroon

Short communication

TeleHealth Resources for Individualized Goals (THRIVE) in Alcohol Recovery Study: Initial Findings

11:50 to 13:20
Room 1.05
Katie Witkiewitz

Short communication

A randomised controlled trial assessing the effectiveness of a smartphone app intervention for alcohol-dependent adults

11:50 to 13:20
Room 1.05
Josefine Östh

Short communication

Autobiographical reasoning: a process involved in the

Short communication

PREDICTORS OF TREATMENT COMPLETION AND

Short communication

A Longitudinal Evaluation of an Alcohol Related Brain

**clinical
evolution of
individuals
with alcohol
use disorder?**

11:50 to 13:20
Room 1.05
Clara De Groote

**DISCONTINUATION
IN GROUP
TREATMENT OF
PATIENTS
WITH AUD:
RESULTS FROM
A NORWEGIAN
MULTI-SITE
PREDICTOR
STUDY**

11:50 to 13:20
Room 1.05
Kristoffer Høiland

**Injury
Specialist
Residential
Rehabilitation
Service**

11:50 to 13:20
Room 1.08
Anne Campbell

Short communication

**A systematic
review of the
nuances of
attachment,
bonding and
parenting for
mothers in
addiction
recovery**

11:50 to 13:20
Room 1.07
Louise McCulloch

Short communication

**An Alcohol
Strategy for
the Northwest
Territories**

11:50 to 13:20
Room 1.08
Bryany Denning

Short communication

**Barriers for
treatment in
alcohol use
disorders
(AUD) - the
role of
stigmatization:
A consumer's
perspective**

11:50 to 13:20
Room 1.08
Anja Bischof

Short communication

**Corporate
political
activities of
the Portuguese
Alcohol
Industry post-
COVID-19,
where do we
stand?**

11:50 to 13:20
Room 1.08
Francisca Pulido Valente

Short communication

**Embodied
Storytelling:
An Accessible
Approach to
Re-storying in
the Recovery**

Short communication

**Emotional
dysregulation
as a predictor
of cocaine
severity and
withdrawal**

Short communication

**Exploring
Personal
Strengths and
Resources in
Long-Term
Substance Use**

Process

11:50 to 13:20
Room 1.07
Meghann Perry

symptoms

11:50 to 13:20
Room 1.07
Alba Palazón-Llecha

Disorder Recovery: Insights from Lived Experience

11:50 to 13:20
Room 1.07
Myriam Beaulieu

Short communication

Managed Alcohol Programmes: a realist review to identify what works, for whom, and in what circumstance

11:50 to 13:20
Room 1.08
Emma King

Short communication

Pragmatic case finding as a strategy to improve addressing alcohol in general practice - a mixed methods pilot study

11:50 to 13:20
Room 1.08
Torgeir Gilje Lid

Short communication

Recovery does not stop at discharge: A qualitative evaluation of Alcohol Recovery Navigators in North East England.

11:50 to 13:20
Room 1.07
Emma-Joy Holland

Short communication

Successful alcohol and cannabis counselling in Germany: What is the difference between medical and legal referrals?

11:50 to 13:20
Room 1.05
Moritz Rosenkranz

Short communication

The effect of Individual Placement and Support on employment outcomes for individuals with substance use disorders

11:50 to 13:20
Room 1.07
Eline Borger Rognli

Short communication

The problematisation of alcohol in the Northern Territory: what did Alcohol Mandatory Treatment seek to address?

11:50 to 13:20
Room 1.08
Sarah Clifford

Short communication

The role of specialist substance use and addiction

Short communication

Understanding the process of drug addiction recovery

Short communication

“I drink less and that’s no small

treatment in building recovery capital

11:50 to 13:20
Room 1.07
Florian De Meyer

through learning from lived experience

11:50 to 13:20
Room 1.07
Thomas Martinelli

matter”: A qualitative study of a managed alcohol program evaluation in Barcelona.

11:50 to 13:20
Room 1.08
Amaia Garrido

14:20

Short communication

A qualitative exploration of the Alcohol Harm Paradox among different socioeconomic groups in Australia

14:20 to 15:50
Room 1.05
Klaudia Kepa

Short communication

A spatial examination of liquor licence density and the level of disadvantage of schools in Ireland

14:20 to 15:50
Room 1.05
Anne Doyle

Short communication

What’s the risk, does underaged drinking influence employment outcomes for young adults?

14:20 to 15:50
Room 1.05
Nicholas Taylor

Short communication

Alcohol and youth neurodevelopment: a systematic review of longitudinal brain imaging studies

14:20 to 15:50
Room 1.05
Dhatsayini Rattambige

Short communication

Medications for alcohol use disorder in alcohol-related cirrhosis

14:20 to 15:50
Room 1.05
Hugo López Pelayo

Short communication

B-Phosphatidylethanol sampling in primary health care to detect harmful alcohol use -

perceptions among physicians

14:20 to 15:50
Room 1.05
Åsa Steensland

Short communication

Phosphatidylethanol as an outcome measure in treatment aimed at controlled drinking

14:20 to 15:50
Room 1.05
Joar Guterstam

Short communication

Alcohol prevention: a review using Topic Modelling

14:20 to 15:50
Room 1.08
Nina Harth

Short communication

Attention and reward related brain activity in cannabis users: A registered report of a longitudinal study

14:20 to 15:50
Auditorium III
Inês Macedo

Short communication

Barriers and Enablers in Disclosing Substance Use by Pregnant Women in Australian prisons

14:20 to 15:50
Room 1.06
So Bi Kim

Short communication

Cannabis and mental health in Germany: a baseline estimation pre legalization

14:20 to 15:50
Room 1.08
Eva-Maria Krowartz

Short communication

Cognitive impairment as a predictor of long-term psychological distress in patients with polysubstance use disorders

14:20 to 15:50
Auditorium III
Jens Hetland

Short communication

Digital Invisibility: Presence of Substance Use Disorder Treatment Programs for Women in the

Short communication

Does lisdexamfetamine maintenance help or hinder cognitive function in people with current

Short communication

Easy to reach, hard to research: cognitive function and substance use characteristics of people with

Caribbean

14:20 to 15:50
Room 1.06
Rocio Suarez Ordoñez

methamphetamine severe drug dependence?

14:20 to 15:50
Auditorium III
Raimondo Bruno

use.

14:20 to 15:50
Auditorium III
Nina Auestad

Short communication

Ethyl glucuronide in maternal hair to objectively assess alcohol consumption in the three trimesters of pregnancy

14:20 to 15:50
Room 1.05
Katarzyna Okulicz-Kozaryn

Short communication

Evaluation of heroin-assisted treatment in Norway: Protocol for a mixed methods study

14:20 to 15:50
Room 1.08
Lars Henrik Myklebust

Short communication

How Are African Countries Leveraging Health Communication For Tobacco Use Prevention With Young People: A Scoping Review

14:20 to 15:50
Auditorium VII
Charity Aienobe-Asekharen

Short communication

In favor or against the codependency concept: A narrative review of arguments in scientific literature

14:20 to 15:50
Room 1.08
Alexis Beaulieu-Thibodeau

Short communication

Neural Correlates of Addiction: A Resting-State Meta-Analysis of Substance Use Disorders and Behavioral Addictions

14:20 to 15:50
Auditorium III
Marc Ritter

Short communication

NK1 antagonism modulates negative emotional processing in abstinent opioid dependent individuals and healthy controls

14:20 to 15:50
Auditorium III
Lexi Hand

Short communication

Phosphatidylethanol as a screening

Short communication

Prevalence and trends of

Short communication

Social Cognition in

tool for alcohol consumption during pregnancy

14:20 to 15:50
Room 1.06
Margareeta Häkkinen

ethanol and drugs among arrested drivers in Norway in the period 2013-2023

14:20 to 15:50
Room 1.08
Ragnhild Jamt

people with substance use disorders

14:20 to 15:50
Auditorium III
Sónia Rodrigues

Short communication

The bodily parallel: Bridging Gaps in Current Theories of Addiction and Interoception

14:20 to 15:50
Auditorium III
Mateo Leganes-Fonteneau

Short communication

The important role of social connectedness in the alcohol use of women aged 50 to 62 years.

14:20 to 15:50
Room 1.06
Grainne Clarke

Short communication

The relationship between cannabis and tobacco use - a systematic review and meta-analysis

14:20 to 15:50
Room 1.08
Tesfa Mekonen

Short communication

Tuning In for Chemistry: Setting up a multi-instrument mobile drug-checking lab at a 7-day psychedelic music festival

14:20 to 15:50
Room 1.08
Daniel Martins

Short communication

Utilization of pharmacological treatment for alcohol use disorder in pregnancy in the total Swedish

population

14:20 to 15:50
Room 1.06
Sara Wallhed Finn

16:00

Short communication

A mindfulness-based intervention for craving reduction in gambling and video gaming disorder: A case study.

16:00 to 17:30
Room 1.05
Francisco José Rivero
Ramón

Short communication

A pilot program using Tabletop Role-Playing Games to reduce social anxiety and addiction symptoms in online gamers

16:00 to 17:30
Room 1.05
Joël Billieux

Short communication

Accessibility, local socioeconomic disadvantage and expenditure on electronic gambling machines

16:00 to 17:30
Room 1.07
Jani Selin

Short communication

Associations between mental health and substance use in higher education students in Germany - a cross-sectional study

16:00 to 17:30
Room 1.08
Robert Hrynyschyn

Short communication

Barriers and facilitators for accessing HCV care in PWID: a qualitative study using an intersectional approach

16:00 to 17:30
Room 1.08
Ilhame Anwar

Short communication

Barriers and facilitators to accessing drug treatment services for people who use drugs in Oman: a qualitative study.

16:00 to 17:30
Room 1.08

Short communication

Efficacy assessment of the universal problem-gambling prevention program "What at stake?";

16:00 to 17:30
Room 1.05
Daniel Lloret-Irles

Short communication

Envisioning youth-dedicated overdose prevention and drug consumption sites in Canada and Portugal

16:00 to 17:30
Room 1.08
Kali-olt Sedgemore

Short communication

Exploring the biopsychosocial needs of ageing heroin users in treatment in Malta: implications for service provision

16:00 to 17:30
Room 1.08
Anna Grech

Short communication

Extended hours of video game play and negative physical symptoms and pain

16:00 to 17:30
Room 1.07
Janni Leung

Short communication

Financial hardship and gambling severity: a population-based study in Finland

16:00 to 17:30
Room 1.07
Tanja Grönroos

Short communication

Harmful types of gambling: Changes and emerging trends in longitudinal helpline data

16:00 to 17:30
Room 1.07
Håkan Wall

Short communication

Late relapse among ex-smokers using e-cigarettes following a quit attempt: a prospective one-year follow-up study

16:00 to 17:30
Room 1.08
Lion Shahab

Short communication

Mental health in people with hazardous cannabis and alcohol use - insights from a study of regulated cannabis sales

16:00 to 17:30
Room 1.08
Maximilian Buschner

Short communication

Online Gambling Companies' Interpretation of Duty of Care and its Implication for Responsibilisation of Gambling Related Harm

16:00 to 17:30
Room 1.07
Maria Persson

Short communication

Religiosity and gambling - moderating role of reflective thinking: A Polish-Georgian Study

16:00 to 17:30
Room 1.07
Rafał Bartczuk

Short communication

Substance induced psychosis among persons with concurrent mental health and substance use disorders under pandemic

16:00 to 17:30
Room 1.08
Jørgen G. Bramness

Short communication

Suicide by people in contact with drug and alcohol services: a national study 2021 to 2022

16:00 to 17:30
Room 1.08
Patrick Horgan

Short communication

The influence of CBT based treatment and therapeutical contract guidelines on a problem gambler abstinence treatment

16:00 to 17:30
Room 1.05
Pedro Hubert

Short communication

The long and winding road to gambling disorder treatment

16:00 to 17:30
Room 1.05
David Hodgins

Short communication

The “Me and others” prevention program: impact evaluation in a sample of Portuguese adolescents

16:00 to 17:30
Room 1.05
Joana Alexandre

Short communication

Toward a classification of technology design features promoting potentially addictive online behaviors

16:00 to 17:30
Room 1.05
Maèva Flayelle

Short communication

What increases the risk of problem gambling in adolescents? Findings from the Greek arm of the ESPAD study

16:00 to 17:30
Room 1.07
Alexandra Primeti

17:50

Short communication

Adão e Eva II Project - HIV, Hepatitis and other STI's prevention and screening among hard-to-reach populations

17:50 to 19:20
Room 1.05
Paulo Anjos

Short communication

Are Australian pharmacists willing and prepared to offer Hepatitis C services? Findings from a representative sample

17:50 to 19:20
Room 1.05
Louisa Picco

Short communication

Being Seen and Heard: Exploring the Relational Dimension of Heroin Assisted Treatment in Norway.

17:50 to 19:20
Room 1.06
Vegard Haukland

Short communication

Death after residential treatment for opioid use disorder among people using fentanyl

17:50 to 19:20
Room 1.06
Jan Gryczynski

Short communication

Global utilization trends for

Short communication

HCV antibody and RNA testing

Short communication

Improving the model of care pathway for

weekly/monthly injectable buprenorphine (CAM2038) in the treatment of Opioid Use Disorder

17:50 to 19:20
Room 1.06
Michael Frost

combined with nursing and peer-based outreach to enhance HCV testing and treatment among vulnerable groups

17:50 to 19:20
Room 1.05
Solange Mendes
Ascensão

HCV between the drug care centres and their referral hospitals in Catalonia.

17:50 to 19:20
Room 1.05
Elena Torrell -Pedreira

Short communication

Looking under rocks: Skin infections in people who use drugs: a mixed-methods investigation in Wales

17:50 to 19:20
Room 1.05
Michelle Hughes

Short communication

Oxycodone and Morphine use in hospitals and primary healthcare in Norway 2010-2021

17:50 to 19:20
Room 1.06
Eirik Haarr

Short communication

Prevalence and microelimination of Hepatitis C in intravenous drug users - improving linkage to care

17:50 to 19:20
Room 1.05
Eva-Carina Heier

Short communication

STTBI risk reduction with OAT among people with prescription-type opioid use disorder

17:50 to 19:20
Room 1.05
M. Eugenia Socias

Short communication

Trends in the detection and co-detection of drugs in a population attending opioid agonist treatment:

2010 to 2020

17:50 to 19:20
Room 1.06
Gráinne Cousins

Thu 24 Oct

11:50

Short communication

A scoping review of mass media interventions intended to reduce stigma towards people who use drugs

11:50 to 13:20
Auditorium VII
Adam Holland

Short communication

Changes in the use of non-prescribed hydromorphone and unregulated opioids use in Vancouver, Canada, 2018-2022

11:50 to 13:20
Auditorium VII
Kanna Hayashi

Short communication

Definition of public amenity in drug consumption room literature: A scoping review

11:50 to 13:20
Auditorium VII
Bianca Whiteside

Short communication

Enhancing Harm Reduction: A Qualitative Evaluation of Athens's Drug Consumption Room

11:50 to 13:20
Auditorium VII
Benjamin Scher

Short communication

Overdoses in the drug consumption room in Oslo: route of administration matters!

11:50 to 13:20
Auditorium VII

Short communication

Reasons for (non-)using a drug consumption room: the point of view of drug users.

11:50 to 13:20
Auditorium VII

Short communication

Safe Inhalation Pipe Provision Study: Intervening to improve policy and practice for people who use crack in England.
